# Weekly Coal Production

Production for Week Ended: June 10, 1989

#### **Preface**

The Weekly Coal Production (WCP) provides weekly production estimates of U.S. coal by State, as well as supplementary data which are usually published twice a month. This week's Supplement contains coal production by state for May 1989, coal supply and demand for 1977-1989 and coal consumption by consumer categories. Also, this publication contains revised data for consumption and stocks at consumers for the first three quarters of 1988. This publication is prepared by the Coal Division; Office of Coal, Nuclear, Electric and Alternate Fuels; Energy Information Administration (EIA) to fulfill its data collection and dissemination responsibilities as specified in the Federal Energy Ad-

ministration Act of 1974 (P.L. 93-275) as amended. Weekly Coal Production is intended for use by industry, press, State and local governments, and consumers. Other publications that may be of interest are the quarterly Coal Distribution Report, the Quarterly Coal Report, Coal Production 1987, and Coal Data: A Reference.

This publication was prepared by Wayne M. Watson under the direction of Mary K. Paull and Noel C. Balthasar, Chief, Data Systems Branch. Questions on energy statistics should be directed to the National Energy Information Center (NEIC) at (202/586-8800).

### **Summary**

U.S. coal production in the week ended June 10, 1989, as estimated by the Energy Information Administration, totaled 20 million short tons, a 9 percent increase from the previous week, and 12 percent higher than the comparable week in 1988.

May 1989 coal production totaled 83 million short tons, 9 million short tons more than in May 1988.

Total U.S. coal production for the first five months of 1989 (January - May) reached 406 million short tons, nearly 20 million short tons more than in the compa-

rable period of 1988. States East of the Mississippi produced 15 million short tons more during this period in 1989 versus 1988. West Virginia, Kentucky and Virginia each contributed about 3 million short tons to this increase.

For the first five months of 1989, U.S. coal production West of the Mississippi was 5 million short tons higher compared to the same period in 1988. Wyoming had the largest gain (3 million short tons) followed by Colorado (2 million short tons), while Montana coal production was 2 million short tons less than in the same period of 1988.

## **Energy Information Administration Electronic Publication System(EPUB)**

#### User Instructions

Selected energy data reports can be obtained electronically from the Energy Information Administration (EIA Computer Facility. Public access to these machine readable statistics is possible by dialing (202) 586-8658 for 300 baud or 1200 baud line speeds. Communications are asynchronous and require a standard ASCII-type terminal. There is no charge for the service. Although there is no required password, you will be requested to use your telephone number as a user identifier. This service is available from 8 a.m. to 11 p.m. weekdays and 10 a.m. to 6 p.m. on weekends and most holidays. The Weekly Coal Production report is normally updated by 2 p.m. on Friday of each week. Allow one or two additional workdays in weeks containing holidays.

#### Access Instructions:

- 1. DIAL (202) 586-8658
- 2. HIT RETURN (CARRIAGE RETURN) TWO OR THREE TIMES UNTIL THE EPUB BANNER APPEARS

WELCOME TO THE ENERGY INFORMATION ADMINISTRATION ELECTRONIC PUBLICATION SYSTEM

3. SELECT THE STATISTICS YOU WISH FROM THE MENU

THE FOLLOWING REPORTS ARE AVAILABLE:

WPSR - WEEKLY PETROLEUM STATUS REPORT
PSMR - PETROLEUM SUPPLY MONTHLY
STKS - PSM STATE STOCKS TABLE
WCPR - WEEKLY COAL PRODUCTION REPORT
PLEASE ENTER THE DESIRED REPORT ID...WCPR

4. ENTER YOUR 10 DIGIT PHONE NUMBER

SWP1081 LOGON IN PROGRESS AT 14:23:22 ON JUNE 6, 1986 PLEASE ENTER YOUR PHONE NUMBER...

5. YOU WILL THEN SEE A BANNER WHICH SHOWS THE REPORT YOU HAVE SELECTED AND PAUSES TO ALLOW AMPLE TIME TO GET READY TO RECEIVE OUTPUT OR TURN PRINTER ON

YOU HAVE SELECTED WEEKLY COAL PRODUCTION REPORTS

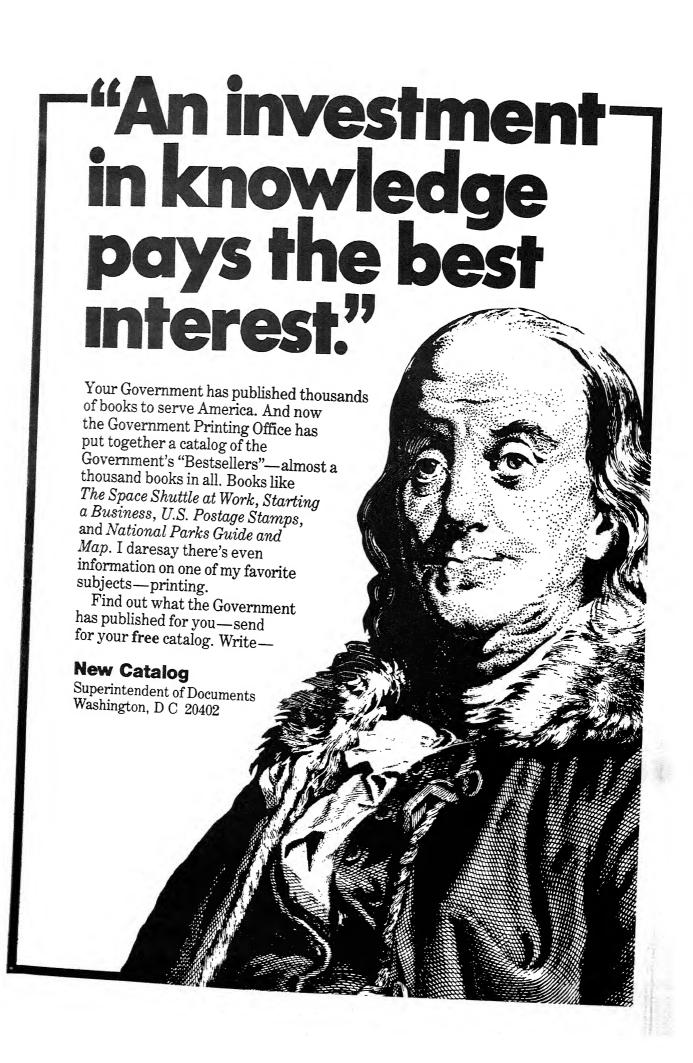

(PRINTING WILL BEGIN IN 20 SECONDS)

Note: Users who experience problems when first attempting to logon should check their terminal switch settings for the following:

- 7 Data Bits
- 1 Stop Bit
- Even Parity

Weekly Coal Production

Energy Information Administration

This publication is available from the Superintendent of Documents, U.S. Government Printing Office (GPO). Information about purchasing this or other Energy Information Administration (EIA) publications may be obtained from the GPO or the EIA's National Energy Information Center (NEIC). Questions on energy statistics should be directed to the NEIC by mail, telephone or telecommunications device for the deaf (TDD). Addresses, telephone numbers, and hours appear below.

National Energy Information Center, El-231 Energy Information Administration Forrestal Building, Room 1F-048 Washington, DC 20585 (202) 586-8800 Telecommunications Device for the Deaf only: (202) 586-1181 Hours: 8 a.m. - 5 p.m., M-F, Eastern Time

Superintendent of Documents U.S. Government Printing Office Washington, DC 20402 (202) 783-3238
